  33 Acre

PROPERTY DETAILS

Nestled in the scenic Genesee Foundation, this mountain home combines comfort with modern upgrades. It features five decks, six sliding glass doors, and skylights that fill the space with natural light and offer views of local wildlife. The remodeled kitchen has an expanded dining area and is equipped with entertainment tech. The main family room includes built-in theater units, and a large hot tub is located on the deck of the second family room. The primary bedroom boasts a new sliding door and an updated ensuite. Recent updates include a new electrical service and garage flooring. The steel roof has a 50-year hail warranty. The Genesee Foundation offers hiking trails, pools, a clubhouse, and is 15 miles from downtown Denver. Experience unique mountain living at 7,500 feet. Visit <https://geneseefoundation.org/> for details.
